SUMMARY

Turns competing stakeholder demands into decisions people can see, using data, documentation and AI: a 93% conflict-free schedule across 20+ staff and faculty, 15% faster course approvals across 5 departments, and Career Buddy, an AI-enabled app in progress.

EXPERIENCE

Graduate Affairs Coordinator, Electrical & Computer Engineering · *Western University* Apr 2026 to Present

- Turned a new no-clash rule into an Excel dashboard that flagged course conflicts early, helping deliver a 93% conflict-free schedule across 20+ staff and faculty.
- Audit 100+ admission applications against requirements and build admission reports for the Chair from 10+ weekly PeopleSoft queries, so decisions rest on accurate data.
- Calculate the averages that set scholarship funding; build Kuali workflows; support three graduate committees.
- Wrote training material that cut onboarding time by 30%; train colleagues and supervise 2 work-study students.
- Built a project milestone guidebook for 60+ students across Fall, Winter and Summer intakes, so each schedule is clear and tracking is simpler.
- Proposed a narrow, low-risk Zoom AI pilot after initial hesitation; it earned the trust to expand.

Business Analyst Intern · *Solstice HQ* Apr 2026 to Oct 2026

- Built the business analysis foundation now applied to Career Buddy: problem definition, scoping and requirements.

Academic Department Assistant, Dean's Office · *King's University College* Jun 2025 to Dec 2025

- Cut course-approval turnaround by 15% across 5 departments by reviewing outlines on arrival and sending one email with all notes.
- Tracked department budget data in Excel, planned 3+ events and secured free merchandise for the full school year.

Customer Relations Representative, Service London · *City of London* Dec 2024 to Jun 2025

- Resolved 5,000+ resident requests in Dynamics 365 CRM, routed by guidelines, urgency and owning team, so each reached the right team.

Consultant & Ambassador · *AFMUA (Africa's Finest Make Up Artist)* Mar 2026 to Present

- Uncovered the founder's real goal and curated a launch video with almost 40k views that helped drive 100+ paid registrations.

Creative Director · *Gumzo Canada* Aug 2024 to Present

- Built the brand from a cold start to 100,000+ views and sold-out events, running events as campaigns against KPIs.

KEY PROJECT

Career Buddy, AI-enabled career empowerment app In progress

Goal: give people who do not know where to start a clear first step. **Action:** defined the problem, scoped three paths, designed the architecture first and gave the AI agent one narrow job with guardrails; built with Lovable and Claude Code. **Result:** prototype built; beta launching in the coming months.
